

The Physiological Basis of Learning

presented by Dr. Carla Hannaford

*Why Movement Integrates Us and Releases Stress
Providing the Science Behind the Learning Process*

October 18 and 19, 2019

9am-noon and 1-5pm each day. Lunch on your own. No prerequisites required.

Sacred Heart School

1150 W 6th Colby KS

- Discover the mystery behind learning in a fascinating and experiential way
- Become familiar with the most recent and far-reaching brain research
- Understand learning development and why learning blocks occur
- Explore the elegant effectiveness of Brain Gym® and related movement modalities

This unique, highly experiential course will actively increase each participant's own learning and creative potential for every aspect of her or his life. It will also provide essential information for anyone who wishes to effectively assist themselves, their children and students of all ages. This class provides the science behind the learning process and offers reasons and practical, drug-free solutions for hyperactivity, dyslexia, autism and other learning and behavioral difficulties. Your facilitator is Dr. Carla Hannaford, noted author of the best-selling books: *SMART MOVES: Why Learning is not All in Your Head*, *THE DOMINANCE FACTOR: How Knowing Your Dominant Ear, Eye, Brain, Hand & Foot Can Improve Your Learning*, and *PLAYING IN THE UNIFIED FIELD, Raising and Becoming Conscious, Creative Human Beings*. Her experiential teaching style is both highly effective and delightful.

Dr. Carla Hannaford is a biologist and educator with more than 40 years of teaching experience, including 20 years as a professor of Biology and four years as a school counselor for children with learning difficulties. Since 1988 she has been an internationally recognized educational consultant and workshop leader to 50 countries, and cited in more than 1,000 books and journals on the science behind learning, and Brain Gym®. She was selected as a guest educator to the AHP—Soviet Project, has been recognized by *Who's Who in American Education* and received many awards for her work on the planet.
